LOCAL AND OTHERWISE.

Announcements.

I hereby announce myself as a candi date for the office of sheriff of Dickinson county, subject to the will of the Republican county convention.

JOHN S. WISE.

[From Saturday's Daily.] John Blevins received 117 head of New Mexico stockers this morning. Ramsey's livery stable is being sold today, on mortgage sale. Hois. is the

The county commissioners yesterday canvassed the vote of Lincoln and Sherman townships.

Two kids had a scrapping match today. The white boy got a black eye, and the black boy was generally "chawed."

The bad man, the plain drunk, and the three gamboliers are still languishing in the confines of the cooler. It must be awfully pleasant such a day as this. Stevens and Bonebrake shot a live

bird match last night, the latter making 10, and the former 7, out of 12. The club also had a Peoria black-bird

Will Stickle, Hodge & Edwards upholsterer, is making an elegant suite of parlor furniture, four pieces, for Dr. Felty. Doc is putting on lots of airs since he got married.

At the regular meeting of the city council last night; the motion to vacate the wedge in front of Spangler's harness shop on Second St. was lost, 4 to Mr. D'Huy says he does not intend to build the brick block, as he contemplated doing, unless the council vacate the property.

H. F. Leckron and J. H. Kennedy will sell at public sale, at the red barn, on the T. C. Henry farm, Saturday, July 9th, a lot of personal property, consisting of horses, cattle, farming implements, etc. Shortly after the sale Mr. Leckron will move to Kansas City, where he will engage in business. He is a jolly, substantial farmer, and we regret to lose him.

The Rock Island bond election in this (Athelstane) township on Tuesday was very quiet indeed. So quiet in fact, that not one single vote was polled, either for or against. The joke of the day comes in, that the board of officers sat there all day and not a vote offering until time to close the polls, when they went ahead and closed the polls, in proper form forgetting to vote themselves until the polls were closed and it was too late. As this election does not affect this part of the county in the least, the interest manifested was very little, nobody caring one way or the other.-Industry Herald.

Change of Firm.

Ward & Fidler have purchased the interest of Bonebrake & Rice, in the Carlton Hardware Store.

The New Meat Market.

Cooper & White open their new meat market in the Lebold block on Spruce St. Tuesday next. The place is now being fitted up in fine style for their occupancy. This morning they received thirty fine corn fed steers for butchering, and intend to keep at all times the best meats only. The new enterprise is bound to be a success.

More Street Railway.

The work of laying more track for the street railway was commenced on Buckeye avenue this morning, under the charge of Contractor Spencor. The additional track will be laid from the Third street track, through Cedar to Second street, down Second to Buckeye, the treatment of her guests. to Seventh, and east on Seventh one and a quarter miles, to the east line of the Henry tract.

Neighborhood Notes.

Geo. Emig, after prospecting around through western Kansas, has decided to stay with us, and has accepted a position in the land office. He commences work the first of next month and is a man well fitted for the place. * * Miss Maggie Wilson, daughter of Hon. V. P. Wilson, of Abilene, who has been visiting Mrs. J. H. Another Valuable Enterprise.

N. S. Bryant, of Lincoln Center, a well known importer of fine horse flesh, spent Sunday in Abilene. Mr. Bryant expects to shortly remove to Abilene, and open up a breeding establishment. He is backed by unlimited capital, and as a breeder of imported stock, has made his name famous in this part of the country. In the near future, Abilene will be noted far and wide, as a mart for the finest bred importations of the genus equine.

Why should I subscribe for The Practical Home Physician? Because it gives a good idea of the body, the organs of the human system, the physiology and hygiene of these organs, and all the diseases which these organs are heir to. It gives the full history of each disease, telling what climates are best for patient and what are worst; gives symptoms in detail so that you can easily tell the disease; gives cause and prevention of diseases and full and explicit directions for nursing sick; also treatment fully up with the times and known to be most effective. It is in plain, every-day language, such as any school boy can understand. You will see many other good points about

it when Mr. Russel calls on you. d&w
